We have booklets on the three main types of cardiomyopathy - hypertrophic, dilated and arrhythmogenic right ventricular - as well as a booklet on cardiomyopathy in children and young people

These leaflets provide details on the services the CMA offers to patients and their families as well as how to become a CMA member

Our quarterly newsletter has medical articles, patient stories and details of our support groups and telephone volunteers

We also offer awareness posters (right) that give details of the charity, including our free-phone helpline num-
